### THURSDAY, SEPT. 15, 1898

Judging from the number of Stock Exchange sales, the sugar stock craze has not reached a very dangerous pitch.

The City of Columbia owners have the satisfaction that misfortunes at the beginning often foreshadow a good ending.

Ernest Thrum can say with the man who went through a railroad is down wreck, "It was a great experience, but once is enough for me."

The West wants the Philip pines and the East does not. It conservative element of the whole

It would be interesting to know what sort of a reply Carl Schurz would give to the request of the Hawaiian Board of Missions th t none of the conquered South Sea islands be returned to Spain.

There is talk of a possible sur plus in the United States treasury as a result of the war tax The chances are, however, that the government financiers are not auxious to have the war tax repealed.

No local responsibility is accepted for this: The Peace commission has its Day to Frye Spain, but if the Hawaiian Commission gets Deleful, is is Frear to Hitt Wa hington products, will n the people it is working for then any American hody.

It is quite apparent that the volunteers are satisfied to allow the regular army to hold down new American possessions. A good majority of the men in the ranks, volunteered for fighting only. Many of them have private business that needs attention.

created as much or more comment trade now goes by the British line School Bags! than the Santiag campaign of the from Vancouver, which ought to United States. It is to be hoped go from Tacoma in the Columbia that any future American cam paigns will show the same improvement the British have made in Khartoum.

Senator Alger says there is no necessity to investigate the ways ploy the same local agents and and means of the War Depart ment. He will have bard work convincing the people that he is right. If, however, the present furore results in a reorganization of the War Department on a basi ness basis, the people will be yesterday of twenty leaders of the fairly satisfied.

It is stated on fairly good authority that a big corporation cally in favor of outright annexa backed by one hundred millions of tion to the United States and two Sugar Trust and Standard Oil were in favor of a republic. The capital is waiting for settlement general native opinion is that it is best to adopt United States Conof affairs in Cuba, to start into sul Wildman's suggestion and the sagar business on a large offer liberal inducements to the scale. Well, Hawaii is not to be independent factions to co-operate scared out of business yet a while, and to reward the services ren

of American interests in the from Hongkong today. Orient, it is noted that in 1880 the United States exported to China only \$3,978,775 worth of products while England exported more than \$47,000,000 warsh. Last year American exports to the country W. S. Schley and Brigadier Genwere valued at \$17.984,472, while military commission, arrived off less than \$36,000,000.

MR. LOWRIE'S PLAN.

Manager Lowrie's experiment will go a long ways toward assist ing in the solution of the planta tion labor problem of Hawaii. The people can now be positive and every effort will be made to assure its success if possible. Now Congress." The experiment can be put down as a plain, every day ous ness proposition, an innovation made with honest intention and positive hopes and determination for success if success can be

Manager Lowrie will also be in way to prove the truth or falsity of contentions made by the Portuguese. It has often been stated that the Portuguese ask too much as often, but now the situation to bedrock condition. Picked American fami lies fresh from the land of the free are to take up the work of labor in the sugar fields. The results they turn out and the mental certainly appears that the ultra and financial condition of the colony after a year's work will prove country now holds the balance of the white labor classes now here either false prophets or capable judges of the situation.

> There is no question of the white plantation family scheme being received favorably by the mercantile men since it means a widening of the market for Amer ican goods. There is everything to win, since success means a god send to the now American citi zens, and if the plan is a failure the territory will not suffer any oticeable losses.

The following from the Tacoma Ledger gives some inkling of how he memorials touching on ship ping and tariff will be received in the States:

\* The sailing of a steamship from T.coma for Hawaii, loaded with doubt be followed by many others from the same port. While our merchants and manufacturers arnaking efforts to develop trade with the islands others are doing he same thing, and European and Japanese merchants are getting in -rge stocks of goods from their we countries, in anticipation of the going into effect of the Amerteau tariff. This is ample reason "by the tariff laws should be ex tended to Hawaii without delay. and also our navigation laws, so Great Britain had its first un- that American products will have School Lunch Boxes! to be carried to the islands in or other American ships.

One thing is noticeable, however. The grudge Tacoma is sup posed to bear the British line is more newspaper talk than actual business fear, since both lines em both receive a fair business deal.

LEADERS WANT ANNEXATION.

Eighteen Out of Twenty Declare for American Rule.

Manila, Sept. 6.-At a meeting Filipines of all sections called to discuss the policy of these islands, eighteen of them were emphati-

dered. The United States cruisers As an evidence of the increase Olympia and Raleigh returned

Schley in Porto Rico.

San Juan de Porto Rico, Sept. 6.-The United States transport Seneca, carrying Rear Admiral those of England were something the barbor last night, but did not at MRS. H. B. BAILEY'S. enter until this morning.

IS MANAGING EDITOR-

Mr. Henderson Representing Tacom Ledger In Hawnil.

E. A. Henderson, managing edithat this is an honest experiment first trip of the steamship City of that annexation is accomplished Chicago Tribune, where he has there can be no accusations of a for many years held important scheme put forward to "influence and responsible positions in the news and editorial departments. experience, a writer of great abilility and his observations on the new child of the Republic will be valuable and entertaining.
The Ledger sends Mr. Hender

son on this trip for the sole purpose of studying the conditions of rade of the islands in all its branches, and to make a truthful and comprehensive report. He will make a special study of the possibilities of trade with Tacoma. He will find out what the people what the growth of trade may likely reach, and all other facts that may guide our manufacturers and merchants in the future.
